DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 29-31 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 29 recites the limitation "a standard" in lines 1 and 2. Such limitation is indefinite because the claim language does not disclose which standard. Appropriate correction is required.

Claims 30 and 31 are rejected under 35 U.S.C. 112, second paragraph based on their dependency on claim 29.

Allowable Subject Matter

3. Claims 1-28 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter: Prior art fails to suggest or render obvious a mobile station that determines if a cell currently assigned to the mobile station has a first type or second type of broadcast channel and based upon the mobile station's determination, sends a Packet Measurement Report to the network. The Report identifies neighbor cells in a list

received from the broadcast channel wherein the type of list is explicitly or implicitly specified in the Report.
